

**— The Gift Boutique, Reimagined —**  
*Thoughtful choices aligned with Okada Green Heart*

The Gift Boutique at Okada Manila has been refreshed to enhance the shopping experience while reinforcing the resort's sustainability commitments. The updated space now features a more dedicated layout, improved visual displays, and clearer product groupings that bring Okada Manila-branded merchandise and curated consignment items together in one cohesive retail environment.

Sustainability is the main objective from the start. The boutique now uses energy-efficient LED lighting throughout the space, supporting reduced energy consumption in line with the Energy Efficiency pillar of Okada Green Heart (OGH). In addition, the store has significantly reduced its reliance on single-use plastics, transitioning to eco-friendlier packaging options as part of its broader effort to minimize environmental impact.

Within this new setting, Okada Manila has integrated the Okada Green Heart Corner—a dedicated space that brings community support and responsible retail into everyday gifting.

## Products with Purpose and Community Impact

The OGH Corner features products developed in partnership with non-government organizations and community-based enterprises, making sustainability a visible and accessible part of the guest shopping experience. Established in the last quarter of 2025, the corner serves as a permanent platform that supports ethical livelihoods and encourages more mindful purchasing choices year-round.

Guests can find premium treats from Manila Cookie Story, a Filipino brand known for its locally made cookies; handcrafted accessories by Fresh Hope, crafted by women supported through livelihood and skills development programs; and culturally inspired gifts from Aciapak, which offers locally themed souvenirs that celebrate Filipino identity. Each item reflects the people and communities behind its creation—turning everyday gift purchases into direct, meaningful support.

By placing these products in a central retail space, Okada Manila actively expands the reach of its partners. This approach creates sustained opportunities for community-based producers while offering guests thoughtful gifting options that align with Okada Green Heart values.

"The goal is to make sustainability part of the regular shopping experience by integrating the Okada Green Heart (OGH) Corner into The Gift Boutique and by enhancing the space, we're able to highlight products with real stories behind them while supporting the communities who create them."

Manager for Retail Operations, Leasing/Retail

## Why This Matters:

Guided by the Energy Efficiency and Talent and Community pillars of Okada Green Heart, the OGH Corner demonstrates how sustainability can be embedded into everyday operations. Through thoughtful design, responsible retail practices, and long-term community partnerships, Okada Manila continues to translate its commitments into practical, visible action.

## Join the Okada Green Heart Movement

Through the Okada Green Heart Corner at The Gift Boutique, Okada Manila continues to move sustainability forward in simple, tangible ways—supporting communities, reducing environmental impact, and making responsible choices part of the everyday guest experience.

**Thank You for Caring!**

Together, let's build a greener future—one action at a time.
